HSCA Statement on House Energy and Commerce Health Subcommittee Hearing on “*Made in America: Strengthening Domestic Manufacturing and Our Health Care Supply Chain*”

Washington, DC (June 12, 2025) – Healthcare Supply Chain Association (HSCA) President and CEO Angie Boliver today released the following statement:

“The Healthcare Supply Chain Association (HSCA), which represents the leading traditional healthcare group purchasing organizations (GPOs), applauds the House Energy and Commerce Committee leadership for their work to enhance domestic manufacturing and resilience in the medical supply chain. As the sourcing and contracting partners to American hospitals and healthcare providers, traditional healthcare GPOs are committed to ensuring that hospitals and the patients they serve have continuous, reliable, and affordable access to medical products. We hope to continue working with bipartisan policymakers to bolster domestic manufacturing.

HSCA supports efforts to increase domestic capacity in the supply chain, and we are proud that our members are able to offer customers the opportunity to source necessary products domestically. GPOs work alongside manufacturers and healthcare providers to increase competition and promote domestic manufacturing, which is vital to ensuring patient access to essential medicines and products. During the COVID-19 pandemic, for example, a number of HSCA member GPOs launched programs to invest in domestic and geographically diverse manufacturers, helping expand production capacity and increase hospital access to critical supplies, including pharmaceuticals. GPOs also help bring new products to market with domestic manufacturers through long-term contracting – a key component designed to support manufacturer investment and sustainability.”

About the Healthcare Supply Chain Association (HSCA)

The Healthcare Supply Chain Association ([HSCA](https://www.supplychainassociation.org)) represents the nation’s leading healthcare group purchasing organizations (GPOs), which are critical cost-savings partners to America’s hospitals, homes, nursing home pharmacies, clinics, home healthcare providers and surgery centers. GPOs deliver billions in savings annually to healthcare providers, Medicare and Medicaid, and taxpayers. HSCA and its member GPOs are committed to delivering the best products at the best value to healthcare providers, to increasing competition and innovation in the market, and to being supply chain leaders in

transparency and accountability. For more information, visit www.supplychainassociation.org. Follow HSCA on Twitter [@HSCA](https://twitter.com/HSCA).
